# Qlight

Gives you a  
Brighter  
Future

---

## Qlight Gives You a Brighter Future!

Qlight has been contributed to an industrial safety and efficiency by producing several audible/ visual signaling devices and industrial LED lights since its establishment in 1986. Our technology and quality are highly reputable among various industries for example semiconductor manufacturing equipment, automobile industry, unmanned automation facility, steel production facility, shipbuilding industry, offshore plant, specialized unit for petrochemical industry based on diverse technology patents and core technologies such as LED light source, heat radiation technology, explosion proof design. Our established local corporations in South Korea and China, sales branches in the United States, Japan, Vietnam, and a global service network provides a distribution and sales system servicing over 80 countries that help Qlight reinforces industrial fields all over the world.

# Qlight is a representative of signaling device in Korea.

Qlight has been striving to accomplish our mission to provide visual and audible status indicating systems and solutions to enhance our customer's work safety and efficiency for the last three decades. As a market leader, Qlight is going to accomplish our responsibility by introducing state of the art equipment and unmanned facilities.

## 1986 - 1995

### Business foundation and consolidation

- 1986 Established Qlight
- 1993 Nominated for developing domestic explosion proof warning lights by Korean Ministry of Science & Technology

## 1996 - 2005

### Growing as a signal transmission device specialist

- 2001 Established Shanghai Qlight Electronic Co.,Ltd. in China

- 2004 ISO 9001:2000 certificates acquired

## 2006 - 2017

### mission device specialist A great leap forward & business reconstruction

- 2010 Established R&D Center
- 2011 Selected as a venture company
- 2011 Selected as an INNO-BIZ firm which is an innovative tech company
- 2014 Selected as a promising export company by Small and Medium Business Administration(SMBA)
- 2014 Established the Qlight USA, Inc. in San Jose, CA.
- 2016 The second headquarter factory built

# History of Change & Innovation

## 2018 to Present

### New engines for growth

2019 Established Qidong factory

2019 Selected as a family friendly company by Ministry of Gender Equality and Family

2020 Selected as a small giants company by Small and Medium Business Administration(SMBA)

2021 Selected as a youth-friendly small giants company

2023 Selected as the best reading management company by the Ministry of Culture, Sports and Tourism of Korea

## The 2<sup>nd</sup> growth and globalization

# Qlight, the best professional company

Leading the **improvement of industrial efficiency**

## 1 | Aiming for the first-class

Aiming for the first-class specialized company to contribute industrial efficiency and safety of customer based on the core competency of System, Variety, and Hi-quality

## 35 | Continuous growth for about 35 years

Qlight has been continuously growing for 38 years since its foundation and is recognized for quality and technology based on the business culture of partnership and management of sharing

## 80 | Global networks in 80 countries

Exporting to all over the world through global network spanning over 200 distribution channels in 80 countries and brightening industrial sites around the world

## 450 | Multi-variety production

Satisfying various needs of customers through systematic customer-customized production system for over 450 products

### Quick

Prompt customer satisfaction and real time enterprise(RTE)

### Quality

Emphasis on product and service quality, workplace innovation and ethical management

### Question

Problem oriented thinking and creative problem solving are based on achieving strategic task.

### Qualified

The most suitable company that leads the innovation of signaling device technology and industrial efficiency improvement

## Core Competency

### System

Delicate mechanism of the work realizes shorter lead time by effectively managing over-all procedures such as purchasing, production, stock management, and distribution.

### Broad-line

Customers are highly satisfied with Qlight products because we offer over 450 types of wide variety of product family with a systematic customized production system.

### Supreme Quality

Qlight's technological capability and supremacy of quality are being recognized because of our strict technology standard and inspection system. We've obtained over 22 certificates such as IECEx, ATEX, NEPSI, CCS, CE, and UL. We've been expanding it in accordance with industrial demands.

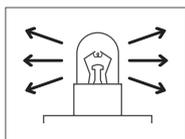

## How Qlight works

# Warning Light/Indicator Light Operating Principle

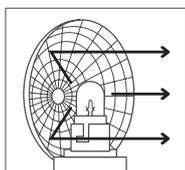

## SELECTION OF WARNING LIGHT

The selection of signaling devices will depend on the particular situation and environment.

### Bulb Steady/Flashing Type

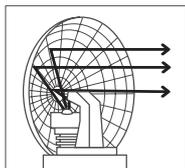

Highly diffusible light bulb that refracts light through a special lens and can be used in a steady or flashing state

### Bulb Revolving Type

By combining a highly diffusible light bulb and a reflector, light is reflected in a parallel beam with a rotating cycle

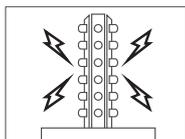

Our bulb revolving model has a long lifetime enabled by using a high durability bulb and a power transfer system that minimizes noise and abrasion

### LED Revolving Type

The combination of an LED and a reflector creates a parallel light beam with a rotating cycle

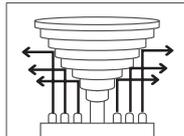

LED Rotating model with reflector adopts a special light distribution and multiple reflection system that is obtained a patent by Qlight can emit the light intensively and evenly as same as a bulb rotating type with reflector. (Patent No.: 10-0889803, 10-0808669 and 20-2008-0002489)

### LED Strobe-Type

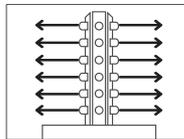

By shortening the LED flashing period and supplying the maximum current to the LED, it produces a flash effect just like the xenon lamp

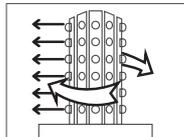

**LED Steady/Flashing Type**

The indirect light distribution system uses a special structure to radiate a uniform light signal throughout the entire body of the lens by using a multi-stage reflector

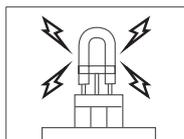

The direct light distribution system uses a high-intensity LED light and diffusion lens to transfer signal over a long distance. Qlight LED lights / flashing lights are equipped with two structures depending on the model type, Steady or Flashing Type

**LED Simulated Revolving Type**

By uniformly arranging the LED lens in a 360 degree circumferential direction, it will produce a flash in a regular rotating sequence. The visual effect looks just the same as the revolving model

**Xenon Lamp Strobe-Type**

An intensive flashing light emitting model with short term energy consumption that can highly attract worker's attention. Better shock resistance than a conventional bulb and weaker than LED.

Since it adopts intensive xenon lamp light emitting into lens design, it can emit intensive signal light in all directions of the lens.

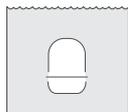

# Waterproof and Dustproof Protection Structure

## Comparing waterproof dustproof protection structure

IP rating \_ Known as "Ingress Protection rating" indicated in two-digit code showing the amount of protection against solid and the liquid.(IEC60529)

# IP 6 7

First Number Protection against solid		Second Number Protection against liquid	
0	 No protection	0	 No protection
1	 Protected against solid objects over 50mm, e.g. accidental touch by persons hands.	1	 Protection against vertically falling drops of water e.g. condensation.
2	 Protected against solid objects over 12.5mm, e.g. persons fingers.	2	 Protection against direct sprays of water up to 15° from the vertical.
3	 Protected against solid objects over 2.5mm (tools and wires).	3	 Protected against direct sprays of water up to 60° from the vertical.
4	 Protected against solid objects over 1mm (tools, wires, and small wires).	4	 Protection against water sprayed from all directions - limited ingress permitted.
5	 Protected against dust limited ingress (no harmful deposit).	5	 Protected against low pressure jets of water from all directions - limited ingress.
6	 Totally protected against dust.	6	 Protected against temporary flooding of water, e.g. for use on ship decks - limited ingress permitted.
		7	 Protected against the effect of immersion between 15 cm and 1 m.
		8	 Protects against long periods of immersion under pressure.

## NEMA SIZE

National Electrical Manufacturers Associations standard for enclosure protection rating, NEMA1-6 and 11-13 type is applicable in Non-Hazardous Locations, NEMA 7-10 is applicable in Hazardous Locations.

Type	Usage place	Environment	Protection rating
1	Indoor Use	Non-explosion proof	Intended for indoor use primarily to provide a degree of protection against limited amounts of falling dirt.
2	Indoor Use	Non-explosion proof	Intended for indoor use primarily to provide a degree of protection against limited amounts of falling water and dirt.
3	Outdoor Use	Non-explosion proof	Intended for outdoor use primarily to provide a degree of protection against rain, sleet, windblown dust; and damage from external ice formation
3R	Outdoor Use	Non-explosion proof	Intended for outdoor use primarily to provide a degree of protection against rain, sleet; and damage from external ice formation, and must have a drain hole.
3S	Outdoor Use	Non-explosion proof	Intended for outdoor use primarily to provide a degree of protection against rain, sleet, windblown dust; and to provide for operation of external mechanisms when ice laden.
4	Indoor/Outdoor Use	Non-explosion proof	Intended for indoor or outdoor use primarily to provide a degree of protection against windblown dust and rain, splashing water, hose directed water; and damage from external ice formation.
4X		Non-explosion proof	Intended for indoor or outdoor use primarily to provide a degree of protection against corrosion, windblown dust and rain, splashing water, hose directed water; and damage from external ice formation.
5	Indoor Use	Non-explosion proof	Intended for indoor use primary to provide
6	Indoor/Outdoor Use	Non-explosion proof	Intended for indoor or outdoor use primarily to provide a degree of protection against hose directed water, the entry of water during occasional temporary submersion at a limited depth; and damage from external ice formation.
6P		Non-explosion proof	Intended for indoor or outdoor use primarily to provide a degree of protection against hose-directed water, the entry of water during prolonged submersion at a limited depth; and damage from external ice formation.
7	Outdoor Use	Explosion proof	Intended for indoor use in locations classified as Class I, Groups A, B, C, or D, as defined in the NEC.
8	Indoor/Outdoor Use	Explosion proof	Intended indoor or outdoor use in locations classified as Class I, Groups A, B, C, or D, as defined in the NEC.
9	Indoor Use	Explosion proof	Intended for indoor use in locations classified as Class II, Groups E, F, and G, as defined in the NEC.
10	Indoor/Outdoor Use	Explosion proof	Are constructed to meet the applicable requirements of the Mine Safety and Health Administration. (MSHA)
11	Indoor Use	Non-explosion proof	Protection from the corrosive effects of liquids and gases by oil immersion.
12	Indoor Use	Non-explosion proof	Intended for indoor use primarily to provide a degree of protection against circulating dust, falling dirt, and dripping non-corrosive liquids.
12K	Indoor Use	Non-explosion proof	Intended knockouts are intended for indoor use primarily to provide a degree of protection against circulating dust, falling dirt, and dripping non corrosive liquids.
13	Indoor Use	Non-explosion proof	Intended for indoor use primarily to provide a degree of protection against dust, spraying of water, oil, and non-corrosive coolant.

## NEMA Ratings and IP Ratings Equivalency Chart

The chart below is for comparison between two enclosure ratings. It is only for reference and these two rating standards are not exactly converted.

NEMA ENCLOSURE TYPE	IP ENCLOSURE TYPE
1	IP20
2	IP22
3	IP55
4	IP66
4X	IP66
6	IP67
12	IP54
13	IP54

# Icon Description

This catalogue helps users quickly identify the product's specifications and features by using several types of icons. If you understand the concept for each icon, you will find it easy to understand the catalogue information.

## Light Source and Operating Mode Icons

Icon	Operating Mode	Icon	Operating Mode
	Bulb steady type		Bulb steady/flashing type
	Bulb revolving type		LED revolving type
	LED steady type		LED steady/flashing type

# QLV Series

Aerodynamic LED Light Bar Suitable for High Speed Emergency Vehicles

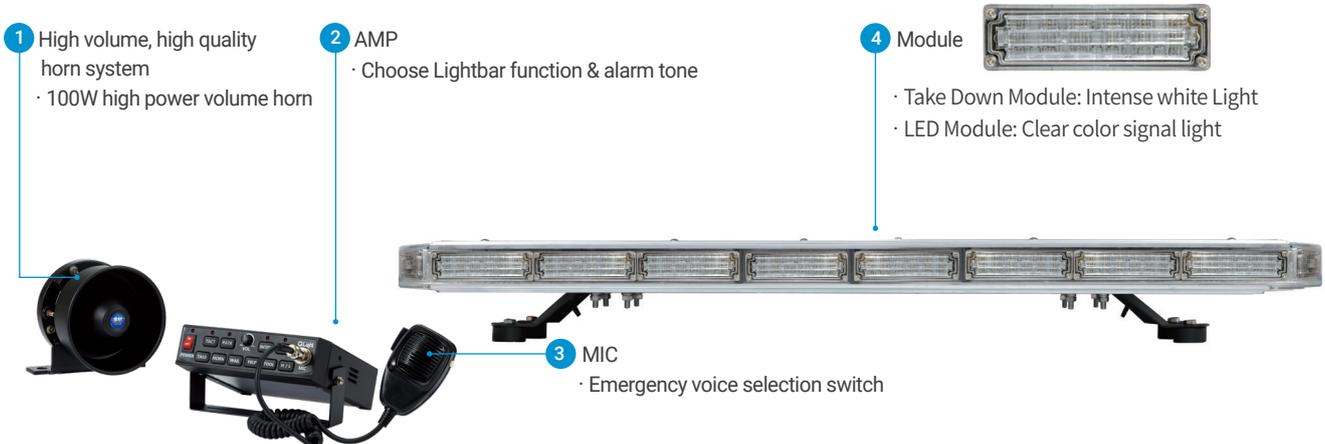

## PRODUCT SPECIFICATION

QLV Series

- Materials** QLV Light Bar Model: Lens-PC, Cover-AL, Board-AL, Mount bracket-STS  
QLV-SET: QLV Light Bar Model-PC other/ SAMP-100-Steel, AL/ SM-100ND-Steel
- Ambient operating temperature** -30°C to +50°C
- Protection rating** IP56
- Lens color** ●● Blue-Red ●● Red-Red ●● Amber-Amber ●● Green-Green
- Flashing rate** 60-80/min(QLV, QLV-SET)

- Compact and aerodynamic design minimizes air resistance in high speed vehicles
- Transparent polycarbonate outer and inner lens provides clear signal light transmission
- Strong mechanical strength, heat, and UV light resistance
- Excellent protection from vibration and impact with use of aluminum boards for both the top and bottom plates
- Internal heat discharges naturally because each LED module adopts an excellent heat dissipative structure
- QLV-SET includes amplifier that has a built-in one-touch switch for selection between signal sound and warning light
- QLV-SET includes a 100W high volume horn with clear warning sounds
- 1,250mm, 1,150mm and 885mm length models are also available
- Available in customized color arrangements

## ELML

Various combinations of sizes, color, and light source depending on the application needs

### PRODUCT SPECIFICATION

ELML

ELML

**Materials** Lens-PC, Speaker Cover-STS, Reflector-Heat resistant ABS, Board-AI  
**Ambient operating temperature** -25°C to +50°C  
**Built-in speaker, volume** Max.126dB at 1m  
**Protection rating** IP56  
**Flashing rate** 60-80/min

- Adjustable size depending on the type of vehicle and application needs
- Suitable for tow trucks, patrol cars and parking lots
- Adjustable size depending on the type of vehicle and application needs
- Suitable for tow trucks, patrol cars and parking lots
- Designed in a structure which allows for quick assembly and disassembly for convenient light source replacement
- Customized color arrangements available
- Modular design allows user defined color arrangement if necessary

# ELM-SOL

Solar powered warning light bar for road safety(road safety)

**ELM-SOL**

## PRODUCT SPECIFICATION

ELM-SOL

**Materials** Lens/Housing-PC, Speaker Cover-STS, Reflector-Heat resistant ABS, Board-Al

**Ambient operating temperature** -25°C to +50°C

**Protection rating** IP56

**Flashing rate** 60-80/min

- Semi-permanent lifetime by adopting high brightness LED
- Solar powered design does not require a power system(Built-in rechargeable battery)
- Built-in SUN switch activates a system that automatically operates the product when darkness is detected
- Operates for 96 hours upon full charge

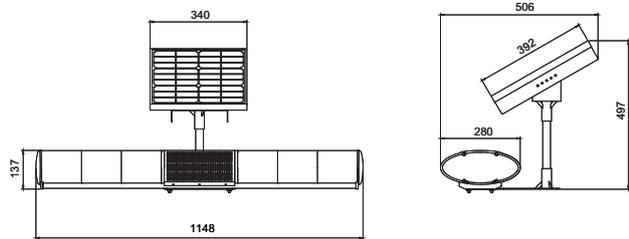

### ELM-SOL Solar Powered Warning Light Bar

Model number	Battery voltage	Battery capacity	Running time	Certificate	Weight
ELM-SOL	12V	12Ah	96 hour	-	12.80kg
